T IS generally believed in railroad Southern Pacific as soon as a satisfactory successor is selected. It is said that Jacob Kruttschnitt, the assistant to Mr. Harriman, will be the man eventually selected. It has been supeventually selected. It has been sup-

posed that because Mr. Kruttschnitt was not given the place when Charles M. Hayes resigned, he will not be selected when a change again occurs. It is supposed that Mr. Harriman's withdrawal is due partly to the fact that he is anxious to give more time to other interests, and that he finds the task unsatisfactory of managing the road from a distance. Mr. Harriman would probably remain chairman man would probably remain chairman of the board in the event of a change. The demand of the Southern Pacific employes and the fact of the frequent meetings of the directors leads to the conclusion that radical changes of pol-icy or direct management may be expected soon. The long machinists' strike on the Union Pacific and the resignations of under officials are also matters that are engrossing much attention in the head offices of the Harting of the Particle o

Charges Being Investigated by Interstate Commerce Commission.

Chicago, Nov. 6 .- The interstate commerce commission began a two days' session in this city today, with Chair-man Knapp, J. D. Yeomans, C. A. Prouty and J. W. Fifer present. The forenoon session was devoted to the case of the Proprietary Medicine Asso-ciation of America against the New York Central Railroad company, in which the medicine men claim a discrimination is made against them by the railroads, and the New York Central in particular. The commission took evidence in the case, but decided to hold it open for a short period.

In this case it was charged that the railroad discriminates against patent medicine advertising, charging more to details considered. Since No. 85 was

Riot on Commercial Street and One Man Badly Beaten.

Man Badly Beaten.

Through a quarrel which originated in Madge Daniels' resort on Commercial street, shortly after 12 o'clock this morning, Edward, Joseph and James McKee, three alleged bad men from the "Hole-in-the-Wall" country, are in the city jail, charged with assault with deadly weapons, and Frank Barker, their victim, is in a physician's care, with his head and body bruised and cut by weapons in the hands of the McKee brothers. According to witnesses of the fight, the McKee brothers used brass knuckies, a billiard ball arranged as a slung shot, and numerous bricks. The weapons used by them are in the possession of the police.

According to the story told the police, the McKees were in the Daniels house at the same time Barker was there. They were drinking heavily and presently remarked that a "rough house" was in order. Barker mildly remonstrated, saying that nothing was to be gained by abusing women, whereon, it is said, the brothers cursed him and made such dire threats that, fearing for his life, he left the house. He had just gained the head of Commercial street, a few feet from the house, when the brothers came out and attacked him. He defended himself by throwing bricks from a near-by brick

pawned for \$4 by a young colored man, Eureka, Nov. 6.—Sheriff Cronin and a posse are out on a man hunt. The objects of their search are two Italians, names unknown, one of whom stabbed James L. Peterson, a laborer at Ferron's grading camp on the Short Line, early last evening, as told in today's Herald. The Italians and some other men were fighting. One of the Italians was knocked down, and when he got on his feet he made for Peterson, who had run up to see the fracas. He struck Peterson from behind, the knife penetrating the left lung and the lower part of the heart. Dr. Hensel, who attended the wounded man, said at noon today that Peterson had a good chance for his life, because of a splendid constitution and the man's evident good habits.

After the effersy the Italians hid in the and this discovery at once led to a general search of the city for this man by the entire police force, but without But later developments were far more sensational. When the pawnbroker's memory had been jogged a little and he had had time to think over the matter he remembered that the watch had been brought to his office on last Sat-urday night between the hours of 11

urday night between the hours of 11 and 11:30 by a white man and offered in pawn. Owing to the fact that it was after business hours, he refused to receive it, and after expressing disappointment the man departed, taking the watch with him.

On Monday morning the same watch was brought in by a colored man about 21 years of age, and the pawnbroker bought it for \$4. A burly colored man, evidently a companion of the other, had been waiting outside the shop while the trade was being made, and as soon as it was completed he entered and took the money which the proprietor had passed over. Both men a good chance for his lite, because of a splendid constitution and the man's evident good habits.

After the affray the Italians hid in the cedars near the camp until the search by the sheriff's posse was abandoned for the night, and then returned to the camp, where they remained until daylight. At an early hour this morning the posse renewed the hunt, after notifying the officers of Tooele county, and their chances of finding the culprit are good. Peterson's home is said to be in Wisconsin. He was taken to the hospital in Ogden today.

Marcus Datel, one of the Italians, was arrested in the outskirts of Eureka this afternoon. He was armed with a revolver, shotgun and knife. It is reported that another of the Italians was seen at Silver City about 4 p. m., and the sheriff has gone there.
